Dear Dr S M Taslim Uddin:

Thank you for reviewing the above manuscript, entitled "Predicting Hypertension Using PPG Sensor Data and Demographic Factors: A Machine Learning Approach" for Computer Methods in Biomechanics and Biomedical Engineering.

We greatly appreciate the voluntary contribution that each reviewer gives to the Journal. We hope that we may continue to seek your assistance with the refereeing process for Computer Methods in Biomechanics and Biomedical Engineering, and hope also to receive your own research papers that are appropriate to our aims and scope.

We would be interested to hear your experience of reviewing for us today, please click the following link to complete a short survey:
